

THE OBAMA HEALTH PLAN TEARS UP YOUR CONSTITUTIONAL RIGHTS

Dear Patriots, The enactment of the Obama health law is a bruising blow to American freedom and medical excellence. But the war is not over. There can be no negotiation between freedom and coercion.

The Obama health law forces you to buy a one-size-fits-all health plan, whether you want it and can afford it or not, and expands the powers of the IRS to punish you for noncompliance. This violates your rights. Nothing in the U.S. Constitution permits this coercion. In fact, the 28 beautiful words of the Tenth Amendment prohibit it.

For the first time in history, the Obama health law empowers the federal government to dictate how doctors treat privately insured patients. That means the federal government will be in control of your care even if you have Aetna, Blue Cross, Cigna or any other “qualified” insurer. Your insurer can pay only doctors who implement whatever regulations the federal government imposes in the name of improving health care “quality.” That covers everything in medicine. (Sect. 1311, pg. 148).

To halt this attack on something as precious as life itself - your liberty - we must advance to the next battlegrounds, the U.S. courts and the Fall elections.

The White House is launching a fifty state p.r. campaign, falsely telling the American people that the law just

We cannot falter now.

enacted against their will is to their benefit.

Now is the time to redouble our efforts. With the U.S. Constitution on our side, and the hearts and minds of Americans with us, we can recapture freedom

No other organization has done more to alert the nation to the present danger.
